EDUCATION

Lincoln University of Pennsylvania

Bachelor of Science in Computer Science **GPA: 3.98**

Relevant Coursework: Computer Network & Security, Cybersecurity & Information Assurance (CIA), Data Structures and Algorithms, Software Testing, CodePath Intro to Cybersecurity

Lincoln University, PA

Anticipated Graduation: Dec. 2026

SKILLS

Cybersecurity & Risk: Threat Modeling (STRIDE), Vulnerability analysis, Incident Response, SIEM, RBAC, DLP, Phishing Analysis, Security Controls.

Tools & Platforms: Tenable.one, Nessus Essentials, Wireshark, Nmap, Tera Term, Infoblox, perfSONAR, Git, AWS, Cascade CMS

Networking & Infra: TCP/IP, DNS, HTTP, Fiber Optic Cabling, HPC/Cluster Systems, CI/CD, Cloud Computing, UPS Systems

Technical: Python, JavaScript, Next.js, FastAPI, Bash/CLI, Linux, NLP Prompt Engineering

Certifications: CompTIA Network+ (In Progress, Summer 2026)

Powered Skills: Active Listening, Communication, Time management, Team Collaboration, Analytical Thinking, Adaptability

PROFESSIONAL EXPERIENCE

MIT Media Lab, Multisensory Intelligence Group

Research Intern – MIT MSRP 2026

Cambridge, MA

June 2026- Aug. 2026

- Selected for MIT Summer Research Program to conduct undergraduate research under faculty mentor Prof. Paul Liang with the Multisensory Intelligence research group.

Univ. of Illinois Urbana-Champaign (hosted at FIU)

Cyberinfrastructure Intern- ACCESS STEP-1

Miami, FL

May 2026-Jun. 2026

- Configured Linux environments and managed Git/GitHub version control across HPC and cluster systems; monitored network performance using perfSONAR and analyzed Science DMZ design and TCP dynamics.
- Explored CI/CD pipelines, cloud computing, containers, and Science Gateways.

Lincoln University of Pennsylvania

Undergraduate AI Researcher- Multimodal Reasoning

Lincoln University, PA

Dec. 2025- Apr. 2026

- Designed and built MMRB, a multimodal reasoning benchmark evaluating VLMs (Gemma3, Qwen3-VL, Llama 3.2 Vision) on structured multi-step decision tasks; generated **450** synthetic visual datasets using Python, NetworkX, and Matplotlib.
- Developed Python evaluation pipelines comparing model performance across reasoning categories including connectivity and path inference
- Presented research findings at Lincoln University of Pennsylvania 2026

Office of Information Technology Student Technician

May 2025-Present

- Resolved **100+** support tickets with **85%** first-contact resolution.
- Shadowed network engineer in hands-on infrastructure work including fiber optic cabling deployment for graduation ceremony, ensuring uninterrupted media team connectivity.
- Responsibly disclosed an exposed API key vulnerability in coordination with faculty mentor.
- Escalate and document security incidents; manage university website via Cascade.

Cybersecurity Research Intern

Oct 2023 – Aug. 2024

- Conducted phishing threat assessment for **120+** first-year students (avg. **4** attempts/month).
- Proposed mandatory cybersecurity awareness sessions to the Office of IT for incoming freshmen, achieving **90%** support and later leading **60%** improvement in phishing awareness among the next cohort.
- Expanded the research and assessed **100+** faculty/staff uncovering up to **45%** critical vulnerabilities; presented findings at ABRCMS 2024.

PROJECTS & COMPETITIONS

4th Place/ 50 Selected Participants | 2026 WiCyS x Tenable x AWS -Exposure Quest CTF

- Placed 4th in 3-day international CTF completing challenges in OSINT, web exploitation, cloud security, exposure management, and AI driven security using Tenable one, Nessus Essentials etc.

Cybersecurity & Information Assurance Class | SafeU IoT – STRIDE Threat Model & IRP

- Full STRIDE analysis of a prototype wearable IoT device; designed Incident Response Plan with AES-256, MFA, RBAC, and SIEM mitigations.

LEADERSHIP, AWARDS & RECOGNITION

| President, NSBE Lincoln University Chapter | Goro Nagase Endowed Scholarship for Mathematics & CS 2026-2027 Recipient | Lincoln University of Pennsylvania Provost Award 2025-2026 | 2026 WiCyS Conference Scholarship Recipient | Splunk 2025 \$10,000 HBCU Scholarship Recipient | | HBCU Battle of The Brains 2025 3rd Place Winner | WiCyS 2024 – 2025 Mentorship Program Mentee.
